

Phoenix

SYSTEMS INTERNATIONAL, INC.

Capability Statement

Mission

To deliver high quality, competitive services that are best in value for our customer's strategic growth.

Core Competencies

- Heavy Equipment Transportation
- Transportation Solutions
- Transportation Management

Differentiators

- **Experience:** PSI is the single largest heavy equipment transportation provider to the US Army in the Continental United States (CONUS). We provide Heavy Equipment Transport (HET), services to the Maneuver Center of Excellence (MCOE) at Ft. Benning GA. Our services provide a onetime single heavy lift capability of more than 100 tons. The capabilities and experience we have enable us to safely transport over 1200 pieces of heavy combat equipment annually. With 100% on time pick-up and delivery we are able to maintain a 98% customer satisfaction rating.

Over 50 years of diverse industry experiences allows PSI to link strategy to execution and assist customers in maximizing their return on investment. Through design and execution of operations PSI helps customers deliver world-class value to their customers to become market leaders in their industry.

- **Diversity:** PSI has a diverse background and culture; team dynamics, entrepreneurial spirit and respect are key components in providing our customers the competitive edge necessary for mission success.
- **Management:** We provide successful management of multiple government and private contracts; upholding our values, ethical and moral standards of conduct in all activities, to ensure compliance of federal, state and private regulations.
